Dear Defenders of Life:

"I think a per-item [per-organ] thing works a little better just because we can see how much we can get out of it [the unborn baby]." -- Dr. Savita Ginde, Vice President and Medical Director Planned Parenthood Rocky Mountains

It is quotes like the one above and many equally horrific statements contained in recently released videos that expose the true nature of the Planned Parenthood organization. We must continue to call attention to this organization that receives \$528.4 million in government grants and reimbursements from taxpayers while performing 327,653 abortions in the 2012-2013 fiscal year. (American Life League Website www.all.org)

THANK YOU! On Sunday, July 26 Pro Lifers from across Long Island answered our call to bear witness against Planned Parenthood during their fundraiser at Sunken Meadow State Park. The large crowd was made up of people from all races and religions, united in their belief that unborn life deserves protection. The crowd passing by the demonstration was even more enthusiastic than ever in their show of support.
