ALL Uniting Pro-Life Groups in Fight Against Planned Parenthood

Accurately labeling it a Baby-Killing Goliath, American Life League (ALL) recently announced plans to unify pro-life groups across the nation to counterattack Planned Parenthood's relentless assault on America's preborn, youth, families and moral foundation.

The seed of ALL's plan for unity was planted last November when Jim Sedlak, the founder of Stop Planned Parenthood International (STOPP), was persuaded to join forces with ALL. Since 1985, STOPP has been the country's most dedicated opponent of P.P. with a tremendous success rate of closing down and preventing P.P. operations. ALL's alliance with STOPP has provided immediate access to a network of pro-life activists who know how to attack P.P. where they are most vulnerable - at the community level!

ALL has had discussions with literally dozens of pro-life groups, nearly all of which have expressed interest in allying with ALL.

Here are some grisly facts about Planned Parenthood and why they must be stopped:

- FACT: Planned Parenthood is the nation's single largest provider of surgical abortions, with the blood of over 200,000 babies per year on their hands.
- FACT: Planned Parenthood is the nation's largest chemical abortionist, providing "birth control" devices that kill another 670,000 babies annually.
- FACT: Planned Parenthood provides abortion-causing chemicals to nearly 500,000 pre-teen and teen age girls each year - some as young as 11 years old and most without the knowledge of their PARENTS!
- FACT: Planned Parenthood proudly pushes graphic "sex education" materials on our kids. (Kids 10 AND UNDER are their favorite age group to target.)
- FACT: Planned Parenthood has used the courts to protect pornography on the internet - where you -know-who is watching it!
- FACT: This year alone, Planned Parenthood received over \$175 MILLION in government funds (YOUR TAX DOLLARS!).
- FACT: Planned Parenthood receives huge annual grants from the foundations of some of the country's largest-and most misguided-corporations.
- FACT: All told, Planned Parenthood's annual war chest is over HALF A BILLION DOLLARS! And nearly all of that blood-stained money is used, directly or indirectly, to TEAR APART, TORTURE and TERMINATE TINY PRE-BORN BABIES!
- FACT: Planned Parenthood also makes huge profits (\$60 MILLION A YEAR!) from selling their deadly inventory of baby-killing products and services.

LEGISLATIVE WATCH**FEDERAL**

CAMPAIGN FINANCE REFORM-On 8/6/98, the House of Representatives passed the Shays-Meehan Campaign Finance Reform Bill. What this bill would do is restrict the rights of citizens groups such as the National Right To Life

Committee(NRLC) and affiliated groups, like ours, to criticize or commend the voting records or positions on issues of persons who hold or seek federal office. The NRLC said that Shays-Meehan, "would place sweeping and unprecedented restrictions on the right of citizens groups to disseminate communications to the public....." We thank Congressman Peter King for his opposition to Shays-Meehan. We express our total disappointment at the other Nassau/Suffolk Representatives Michael Forbes, Rick Lazio, Carolyn McCarthy and Gary Ackerman for supporting this bill that would deny citizens their first amendment right of free speech. Please be sure to call or write their offices to express your sentiments.

The Shays-Meehan Bill now goes before the Senate where it is known as the McCain-Feingold Bill. It is hoped that Senator Mitch McConnell will disrupt its passage there with another filibuster as he has done in the past.

Please be sure to write or call Senators D'Amato and Moynihan to vote against McCain-Feingold.

CHILD CUSTODY PROTECTION ACT

(CCPA)We reported in the September issue that this Act had passed in the Senate. Unfortunately, it had passed in Committee but was left to be voted on after the Senate summer recess. The act would prohibit the transporting of children across state line, from states that have parental involvement legislation, for the purpose of obtaining abortions. Ask you representatives to support CCPA.

BAN ON PARTIAL BIRTH ABORTIONS(PBA)

The ban on PBA is due to be voted on very soon. Continue to encourage both Senators D'Amato and Moynihan to repeat their previous votes in support of the ban on partial birth abortion. Pray hard for all these pro-life bills but most especially for PBA.

LETHAL DRUG ABUSE PREVENTION ACT

S2151/HR4006. This act would prevent the use of

federally controlled drugs (Drug Enforcement Administration) from being used by physicians for assisted suicide. Other provisions in the bill will reduce current legal deterrents to appropriate pain relief. Ask representatives to support this Act.

HOUSE AGRICULTURAL SPENDING BILL

HR.4101 This bill includes language prohibiting the Food and Drug Administration from approving abortion inducing drugs such as the prostaglandin RU-486 a hormone that expells the baby in the womb violently. In addition, HR.4101 prohibits the funding of overseas family planning groups that lobby for abortion. Request support of HR.4101.

House Labor HHS (Health and Human Services)

HR.4276 This bill requires that parents be notified when their children seek contraceptives from any federally subsidized family planning agency. Please ask for support of HR.4276.

NOTE: Act immediately, Congress will recess on 10/9.

MORNING AFTER PILLS On 9/2 the U.S. gave permission to advertise and sell contraceptives pills as "morning after" pills. Immediate criticism came from the U.S. Bishops spokeswoman Helen Alvare stating, "According to the experts we've consulted, it acts commonly as an abortifacient -- a abortion-causing drug". Dr. John Willke, Director of Life Issues Institute agreed with Ms. Alvare.

ELECTION DAY is Tues. 11/3. Last day to register to vote is 10/9. Question each candidate's stand on the life issues of abortion and euthanasia.

CHINA - MOST FAVORED NATION?

Our August article reported on forced sterilization's and abortions in China, among many other human rights abuses. We have since received the following information:

Gary L. Bauer, President, Family Research Council, said on July 21, "On a report card, the Chinese government gets an F in human rights violations. It is evident China has not earned an unconditional renewal of Most Favored Nation. It is clear that torture, arbitrary arrests and detention, execution without trial, repression of ethnic minorities and religious believers, along with forced abortion and sterilization, remain common practices."

During the week of August 15, two thousand scientists gathered in Beijing for the 18th International Congress of Genetics. They diverted from discussions of cloning and cancer genes to take a serious look at China's Maternal Infant Health Care Law of 1994, originally known as the Eugenics Law, as to whether it originally intended to condone forced sterilization.

The 1994 law's main purpose is to guarantee prenatal and pediatric health care to poor women and children. The law also contains two controversial articles, 10 and 16, dealing with genetic counseling. Couples undergoing their required premarital physical examination are to be informed of any genetic problems. Successive regulations require doctors detecting a problem to "take steps to prevent childbearing" through sterilization or long-term contraception.

Article 10 says, "The two may be married only if both agree to take long-term contraceptive measures or to take a ligation operation for sterility." With this law and China's Planned Birth Office's "birth allowed certificate" (explained in our August article), which enforces their one child policy, they are strangulating family life. There are no statistics available as to how many people have been sterilized or forbidden to marry under these laws.

In 1988, Gansu province in northwest China passed a law requiring compulsory sterilization of people with an IQ lower than 49. Since that time other provinces have adopted the policy. This sounds like the Nazi racial "purification" campaign with extermination of those selectively deemed unfit.

Dr. Griffiths, Canadian secretary general of the International Genetics Federation said he was heartened that the Chinese government was endorsing informed consent, but added, "It all depends what they mean by informed consent. That may mean the doctor tells you what to do and you do it." Incidentally, according to Elizabeth Rosenthal's N.Y. Times International column, "Canada required sterilization of some mentally retarded people as recently as the 1960's."

When reading about China's Eugenics Law, we immediately related it to a New York State Law, the Prenatal Care and Assistance Program (PCAP), which was passed and has helped mothers and babies in need. This law is perpetually attacked by the pro-abortion lobby to include abortion funding. How anyone can logically conclude that abortion should be considered standard prenatal care is just preposterous to us! Stay alert! Strictly monitor the wording of your health care laws and any amendments to them. This is true for care for all ages, from the unborn to the elderly and terminally ill and handicapped. Write to your legislators and remind them that China must change, or it should be denied MFN status.

On 10/8/97, the House of Representatives voted 296 to 132 to ban Partial-Birth Abortion. Long Island Representatives voting pro-life were Forbes, Lazio and King. Voting pro-abortion (to allow the procedure to continue to be used) were McCarthy and Ackerman. The vote means Clinton's veto will stand, at least until a new Congress convenes in January of 1999.
