Volume 39 No. 10 2012 **November/December** Issue Sub. \$18.00 Annually

Rescue those who are being taken away to death; hold back those who are stumbling to the slaughter. If you say "Behold, we did not know this," does not he who weighs the heart perceive it? Does not He who keeps watch over your soul know it, and will not He repay man according to his work? Proverbs 24:11-12

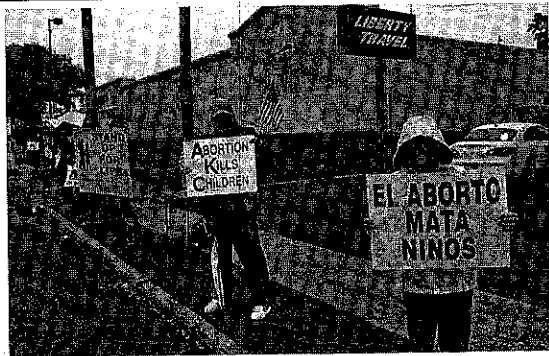

The day was bright and sunny Sat., 10/6, as the **Resurrection Byzantine Catholic Church** in Smithtown held its 2nd annual pro-life witness. Fr. Jack Custer celebrated Liturgy and then led a prayerful procession to Planned Parenthood at 70 Maple Ave., Smithtown where participants continued to pray.

**March for Life on Friday**  
Plan today to attend the Friday, **January 25, 2013 March for Life in Washington, D.C.** Visit [www.marchforlife.org](http://www.marchforlife.org) or call 202-543-3377. Once again, the LI Coalition for Life encourages each bus to send a group to lobby their representatives.

**Good News:** The Brooklyn Ambulatory Center in Sunset Park, the oldest and largest abortion clinic in New York City, has changed ownership and will no longer perform abortions! [*Brooklyn Tablet* 9/28/2012]. Msgr. Philip Reilly of Helpers of God's Precious Infants with dedicated pray-ers and counselors have been seeking an end to abortion at the site for the past 22 years. The new owners have explained that abortion will no longer be offered at the site when it reopens as the New York Center for Specialty Surgery. Msgr. Reilly and Rev. Kevin Sweeney, Pastor of St. Michael's, a block from the former clinic, have been asked to bless the new facility.

SUFL, Huntington

**Stand Up For Life** on Sun., 10/7 was a success again thanks to all the volunteers, participants and those who couldn't attend but prayed! Thank you to those who volunteered for the first time this year. The weather was not very cooperative; it was cool and rainy but that didn't keep dedicated pro-lifers away from the two events. We had approximately 410 attendees in Huntington and 85 in Manorville. Besides the weather in Huntington, we had to deal with the construction. Again thank you and save the date - SUFL 2013 will be Sun., 10/6/2013!

## Election Day, Tues., Nov. 6 - Be prepared to vote.

Find Voting Records and candidates' stand on the Life Issues in the October issue of *Life News*, by visiting our LICL website [www.ProLifeLI.org](http://www.ProLifeLI.org) or by calling LICL 631-243-1435 between 9 AM and 7 PM. For answers to questions on voting, names of candidates in your district, etc. call the Board of Elections: Nassau 516-571-2411 Suffolk-631-852-4500.

Dear Defenders of Life,

There are many ways you support the pro-life cause, through prayer, by peaceful protests at abortion mills, writing letters to editorial pages, political action and financial support. It is the last, as Chair of the Long Island Coalition for Life, that I am asking for in this letter.

The LICL is a completely voluntary organization. Its Board of Directors and committee members receive no financial compensation. Our long-time Chair, Jerry Higgins, who passed away last year after a long, courageous battle with cancer, worked voluntarily for this organization up until the week before his death.

All of your contributions go directly for pro-life work. In fact in a Dec. 31, 2008 *Newsday* article it was reported by the Better Business Bureau of Long Island that of the fifty-five charities they studied, the LICL had the highest percentage of fundraising dollars going to their stated purpose.

What is the main purpose of LICL? It is first and foremost educational. This is done through our newsletter, *Life News*. We also provide pro-life speakers at Long Island high schools and colleges, pro-life presence at street fairs and outside abortion mills. We distribute business-size cards in English and Spanish that provide crisis pregnancy help numbers and websites, and we show a video of the baby's development in the womb in a kiosk at the South Shore Mall. We have also sponsored training sessions for pro-life people so that they can spread the pro-life message to relatives, friends, and co-workers in a loving and respectful manner.

All of this costs money. There have been over fifty million preborn babies killed since the infamous Roe v. Wade decision in 1973. We know through the 3D and 4D ultrasound with certainty that a human being resides in a woman's womb. Our founding political document, *The Declaration of Independence*, says that every human being has an unalienable right to life. Abortion is not a religious issue. It is a fundamental human rights issue. It is the old, old story down through the ages of those with power killing those without it. Slavery, genocide, abortion all spring from the same poisoned well: the end justifies any means; might makes right; the weak can be destroyed by the strong.

The preborn baby is the most innocent and defenseless of human beings. Please help us end their slaughter with whatever size contribution you can afford and together we can win this fight for all those little ones who can not defend themselves and whose silent screams from abortion fill the universe.

Thank you for your support and prayers.

For His Innocents,

George E. Frost

P.S. Please use the enclosed postage-paid envelope and the coupon on page 7 to volunteer and/or send your year-end donation as soon as possible. We want to keep Long Island moving in the pro-life direction. Thank you.

P.P.S. Gift subscriptions to *Life News* are another way you can spread the pro-life message. Just check off the gift subscription box in the page 7 coupon and return with your \$18.00 subscription donation. Photocopy the coupon if you are making several.

## FEDERAL LEGISLATION

The HHS Mandate took effect 8/1/2012. It orders all employers of over 50 people to provide medical insurance coverage which includes contraceptives, sterilizations and abortifacients. Full exemptions are granted only to very narrowly defined religious organizations, but a one year waver (until after the elections) has been given to a growing number of religious affiliated institutions, and other businesses.

As of 10/10/2012 there are 33 lawsuits, with over 100 plaintiffs, (some are private companies), filed against the Mandate.

Catholic family-owned Hercules Industries had received a stay in regards to the HHS Mandate. On 9/25/2012, the Obama Administration filed an appeal to end the stay.

You can send your views about the Mandate to your members of Congress. See Contact Information, below. After Election Day, the **current** Congress *may* return for a "Lame Duck Session." Bills currently awaiting action, (both Pro and Anti-Life), could be voted on. Be ready to contact your members of Congress if the need arises.

## NEW YORK STATE LEGISLATION

Be vigilant for a "Lame Duck Session" after 11/6. Bills can be voted on through 12/31/12. Wade is overturned. Keep informed by visiting [nysrighttolife.org](http://nysrighttolife.org)

## HEALTH & SCIENCE

### "Emergency Contraception" without Parental Consent in NYC High Schools

CATCH (Connecting Adolescents To Comprehensive Health), is a pilot program in the New York City school system which provides high school students (girls as young as 14), with Plan B - the "morning-after pill," birth control pills, and the long-lasting Depro-Provera shot, without parental consent or notification. Currently Plan B is sold as an over-the-counter medication, but girls under 18 need a prescription. Oral and injectable contraceptives require a prescription. NYC Health Department doctors write the prescriptions for this program. School nurses are supplied with these drugs. Condoms and pregnancy tests are also included in this program.

CATCH began in January 2011 in 5 schools and was expanded to 14 schools (22,000 students) this year. When their medical office was swamped with requests, Seward Park Campus dropped out of the program. Parents at the schools were sent letters regarding the program and were required to return an opt-out statement if they did not want their child to receive pregnancy tests or contraceptives at the school without their consent. If an opt-out letter is not returned, the school can give the pills or shots without parental permission. Between 1 and 2 percent of parents at the schools have returned the opt-out form. (Steven Ertelt, *LifeNews.com* 9/24/12)

Parents who did not receive the letter may not be aware that their child is participating in this program. (Ray Downs, *Raycom News Network*, 9/24/12)

One school staffer stated, "We can't give out a Tylenol without a doctor's order. Why should we give out hormonal preparations with far more serious side effects, such as blood clots and hypertension?" (Ben Johnson, *LifeSiteNews.com*, 9/24/12)

Emergency contraception is a 'mega-dose' of the regular birth control pill. The risk of an ectopic pregnancy increases with use of the morning after pill. There are no long-term studies on young women regarding the risk of permanent damage or diseases such as cancer from the high doses of these chemicals. The patient information package on 'regular' birth control pills includes the following possible side effects: cerebral hemorrhage, cerebral thrombosis, melasma, migraine, retinal thrombosis, steepening of the cornea, thrombophlebitis and venous thrombosis with or without embolism, mesenteric thrombosis, hemorrhagic eruption, arterial

thromboembolism, pulmonary embolism, myocardial infarction, and hemolytic uremic syndrome. Hormone Replacement Therapy (HRT) carries the risk of stroke, pulmonary embolism, breast cancer and coronary heart disease. The estrogen in the birth control pill has a potency 4 times greater than what is used in HRT. (Is EC Safe, [www.morningafterpill.org](http://www.morningafterpill.org))

Imagine the risk to young girls who use this pill repeatedly. These young women often have no idea of their family medical history or genetic susceptibility. Plan B contains the same active ingredient as Norplant, which was removed from the US market because of dangerous side effects. Over 36,000 women have been awarded more than \$50 million for injuries.

In 2002, abortion promoter David A. Grimes admitted, "Repeated use of Emergency Contraception wreaks havoc on a woman's cycle, so the resulting menstrual chaos acts as a powerful deterrent to using this method too often." Steven Mosher of Population Research Institute wrote, "the advocates of MAP [morning after pill] promote its increased, frequent, and repeated use. From the makers of Plan B, MAP 'can be provided as frequently as needed,' as if it were candy or Tums. The wholesale promotion by the profiteers is undercut by solid evidence, and warnings advising women and physicians to limit usage, or to not use it at all." (*PRI Weekly*, 3/12/04)

Cardinal Dolan writes in a blog post titled 'Tragic and Misguided', "Parents have the right and the responsibility to be the first and primary educators of their children. This plan usurps that role, and allows the public school system to substitute its beliefs and values for those of the parents. It also places minors at risk, because no school system can be expected to know all the pertinent health information about their son or daughter, and be able to properly judge what is in their best interests. Requiring parents to 'opt-out' of the program is hardly adequate, either. In NYS in recent weeks, laudable legislation has been passed and signed into law requiring explicit consent from parents if a child wants to get a piercing or a tattoo. We now also have a law on the books banning minors from using tanning salons even if the parents consent, out of concern for possible long term health risks. And, for every other medical procedure, explicit, informed consent is required. But not when these powerful drugs- with their potentially serious side effects- are involved. Then we let these young teens do what they want, without a word to their parents." (Steven Ertelt, *LifeNews.com*, 9/25/12)

**Book Review:** *Angel in the Waters*, author Regina Doman, illustrations by Ben Hatke, Sophia Institute Press.

"In its mother's womb, a tiny baby grows," A story that is for little children of their journey from conception to birth. A story for grownups, too. Beautifully told and illustrated; it is a gentle telling of beginnings. An excellent gift for a baby shower. It is an educational extra for use at pregnancy crisis centers. (Donors needed for this!)
